How to work with Questionnaire Builder 2 in Gorilla

Tamara Gómez Carrero
UVALAL

Sonja Mujcinovic
UVALAL

This workshop will cover the basics of the online research platform *Gorilla* (<https://app.gorilla.sc/>). We will explore how to create questionnaires using Questionnaire Builder 2 and design tasks with Task Builder 2. Participants will have the opportunity to practice various task types, with a special focus on incorporating audio, images, and written text. The workshop is mainly oriented to those who have not used Gorilla extensively before.
